

INFOPRINT COLOR 1634 EXPRESS

HIGHLIGHTS

- A powerful 625 MHz processor and 256 MB of memory (on the duplex model) produce first-page-out-times as fast as 10.5 seconds¹ for monochrome and 11 seconds¹ for color
- Color Care Technology is designed to help you manage the costs of color printing
- The easy-to-use operator panel displays “show me” graphics and includes a USB direct printing port for walk-up printer access
- Make an impact with 4800 color quality² resolution and toner specifically designed for consistent high quality output
- Security features to help maintain highly secure network transmissions and print job confidentiality at the printer
- Improve efficiency with high-yield toner cartridges

POWERFUL, AFFORDABLE COLOR AND MONOCHROME PRINTING FROM A SINGLE DEVICE

A powerful 625 MHz processor and 256 MB of memory produce first-page-out-times as fast as 10.5 seconds¹ for monochrome and 11 seconds¹ for color, giving small and medium workgroups the ability to produce high quality output whenever it is needed.

The InfoPrint® Color 1634 Express includes tools to help you control color print access, produce consistent print quality and help keep confidential jobs secure. Add wireless networking support or an additional paper tray when you're ready to boost the performance of your investment.

A duplex model, high yield use and return cartridges and an intuitive operator panel are all designed to improve user productivity while reducing the number of user interventions.

MANAGE COLOR TO HELP CONTROL USE AND REDUCE COST

Color is an important business tool that can help you communicate effectively, and the InfoPrint Color 1634 Express provides superb color quality controls. With Color Care technology, you can limit end users' ability to print in color by assigning color print permissions, installing monochrome-only drivers or setting times during the day when the printer operates in a black-only mode. You can also save money on an individual job basis by using toner saver settings, the color saver feature or the proof-then-print capability to reduce waste.

LOW DEVICE COST, HIGH END-USER PRODUCTIVITY

Many businesses discover that the purchase of personal inkjet printers and supplies for those printers may not be visible in the budgeting process. As a result, you may have several of these high-cost devices that may not provide the speed or function that is required by today's small and medium workgroups.

BUILT FOR BUSINESS

The InfoPrint Color 1634 Express includes MarkVision Professional network management software to help simplify set up and use for popular operating systems. The USB direct interface, which is located on the operator panel, allows users to print supported files (PDF, GIF, JPEG and many more) directly to the printer using a USB flash

memory device. For workers on the go, this feature can help save time and enhance mobile productivity. Order the duplex model to boost the productivity of your On Demand Business even further.

IMPRESSIVE PRINT QUALITY

Automatic printer calibration helps provide superior print quality and consistent color output from the InfoPrint Color 1634 Express. InfoPrint Solutions Company toner formulations are specifically designed to work in conjunction with the print engine to provide dependable, brilliant color time after time. In addition, you can optimize color quality to match your needs by using color brightness, contrast and saturation adjustments in the easy to install and use drivers.

ACHIEVE ENTERPRISE-LEVEL SECURITY

Integrated security features help provide peace of mind through most steps of your jobs—from access control to transmission to storage. Confidential print jobs may only be retrieved with the use of a 4 digit PIN. Configurations even allow the ability to lock out and delete incorrect PINs and set the expiration time for confidentially held jobs. Multiple types of security, such as HTTPS and IPSec, help protect information during transmission across the network.

ENGAGE THE PRINTING EXPERTS

With InfoPrint Solutions Company, you can receive support when you need it from experts with comprehensive knowledge of printers, software and supplies. Same-day and next-day service offerings are available for InfoPrint Solutions Company printers in the U.S.

INFOPRINT 1634 EXPRESS SPECIFICATIONS

Item	Specifications
Printer specifications	
Maximum speed ¹	Up to 22 ppm color (letter), 24 ppm monochrome (letter), 20 ppm color (A4), 22 ppm monochrome (A4)
First page out time ¹	As fast as 11 seconds color, 10.5 seconds monochrome
Processor	625 MHz
Maximum monthly usage ²	Up to 75,000 pages (n model), up to 100,000 pages (dn model)
Print resolution ⁵	4800 CQ (Color Quality), 1200 x 1200 dpi (at reduced printer speeds)
Duplex printing	Yes (standard on the dn model, not available on the n model)
Model	n and dn
Memory (std/max)	128 MB/640 MB (n model), 256 MB/640 MB (dn model)
Hard drive	Optional 40+GB
Memory slots	1 open DIMM slot; 1 open flash memory/firmware card slot; 1 open internal solution (ISP) slot
USB direct interface port	Print directly to the printer using a USB flash memory device
General specifications	
Console type	Four-line, all-points-addressable (APA), backlit, gray scale operator panel
Paper handling³	
Paper input sources (std/max)	2/3
Input capacity (std/max)	350/900
Standard input	250-sheet drawer, 100-sheet multipurpose feeder
Standard input capacity	350 sheets (250-sheet standard drawer + 100-sheet multipurpose feeder)
Optional input	A maximum of one additional 550-sheet drawer
Maximum input capacity	900 sheets using 1 additional 550-sheet drawer
Paper output destinations (std/max)	1/1
Output capacity (std/max)	250/250
Standard output	250-sheet standard bin
Envelope capacity	Multipurpose feeder (10 envelopes 20 lb., 75 g/m ²)
Standard datastreams	PostScript® 3™ emulation, PCL 5c and 6, PDF 1.5, PPDS migration tool
Application solutions	Bar code card ³
Supported environments⁴	Microsoft® Windows Server® 2003, Server 2003 x64, Vista, XP, XP x64, 2000, Me, 98, 95, NT® 4, Terminal Services; Citrix MetaFrame; UNIX®; Linux®; Mac OS; Novell

INFOPRINT 1634 EXPRESS SPECIFICATIONS

Printer attachments

Standard	USB 2.0 full speed, Ethernet 10/100BaseTx
Optional internal	Ethernet 1000BaseTX, RS-232C Serial Interface Card, 1284-B Parallel Interface Card
Optional external	Ethernet 10/100BaseTX (1 USB port), Ethernet 1000BaseTX (4 USB ports), 802.11g Wireless to USB

Printer media

Sizes	A4; A5; JIS B5; statement; letter; folio; legal; executive; some envelopes
Types	Plain paper; cardstock; transparencies; some envelopes; paper labels designed for laser printers (occasional use only)
Weights	Plain paper: 16 to 58 lb. (60 to 218 g/m ²) bond Card stock: Up to 90 lb. (163 g/m ²) index; 100 lb. (120 g/m ²) tag Envelopes: 16 to 28 lb. (60 to 105 g/m ²) bond

Physical characteristics	17.3" x 20.2" x 19" (440 mm x 408 mm x 484 mm) (WxDxH), 57 lb./26.1 kg (weight - n model), 58.75 lb./26.6 kg (weight - dn model)
---------------------------------	--

Supply and maintenance items

Toner yield ⁴	Ship with: 6,000 pages, color and black; Aftermarket: 3,000, 5,000 and 7,000 pages color; 4,000 and 8,000 pages black
Fuser ⁵	120,000 pages
Photoconductor kit ⁵	20,000 pages
Transfer belt ⁵	120,000 pages
Toner waste bottle ⁵	25,000 pages mono
Cost saving/environment features	Some models Energy Star® qualified when duplex is attached Paper saver (N-up output) Standard duplex printing (on dn model) Return program toner cartridges

Warranty North America	One year, 5x9, next-day IOR (upgrades are available). For more information, visit: infoprint.com/support/warranties
-------------------------------	---

Warranty Europe, Middle East, Africa and Asia Pacific	One year (unless country law dictates otherwise), Technical Exchange. Not available in all locations. For local availability or for more information contact your local InfoPrint Solutions Company Representative.

**These numbers reflect an approximate average yield that has been established for each supply item indicated based on 5% coverage. These yields are not a guarantee of minimum life and are not covered under warranty, but are provided to assist in supplies planning. Actual usage should be used to establish the life of the supply product in each end user's specific application. Many factors, such as print coverage per page, paper type and size, model type and environmental conditions can affect supply life.*

InfoPrint Solutions Company hardware products are manufactured from new parts, or new and used parts. In some cases, the hardware product may not be new and may have been previously installed. Regardless, our warranty terms apply.

¹ Exact speed varies depending on document complexity, system configuration, software application, driver and printer state.

² The Image Quality (IQ) or Color Quality (CQ) enhancement, whether 1200, 2400 or 4800, is a special print mode designed to vary the intensity of each individual printed dot by manipulating its size to produce the appearance of greater print resolution within the limitation of a set number of dots per inch (dpi).

³ InfoPrint Solutions Company does not recommend printing this monthly maximum on a consistent basis.

⁴ Not all versions are supported. Contact your sales representative for a detailed list of supported versions.

⁵ Assumes 5% coverage per page. Yields are provided for planning purposes and are not a guarantee of minimum life; actual yields may vary. Declared yield value in accordance with ISO/IEC 19752.
