IBM Infoprint 1312

Highlights

■ *Up to 20 page-per-minute print speed*

■ *Low acquisition price and ownership costs*

■ *1200 image quality printing for professional results*

■ *Reliable operation with high-capacity cartridges and a robust duty cycle*

■ *Powerful processing for printing complex documents*

With a small footprint and a low acquisition price, the IBM Infoprint 1312 delivers the function needed to support individuals, small businesses, and small workgroups. With a fast print speed of up to 20 pages per minute (ppm), 16 MB of memory, a first page out time as fast as 9.5 seconds, and a 200 MHz processor, the Infoprint 1312 allows you to keep up with the pace of e-business.

Low cost of ownership

The only supply item for the Infoprint 1312 is a toner cartridge, which is available in a high-yield version to help you minimize costly interventions and lost time due to supply outages. The printer's toner darkness settings can help save as much as 50 percent on toner usage to further increase the time between supply replacements and help save money. Additionally, IBM offers a cartridge return program to help keep supply costs low. Included with the Infoprint 1312, the MarkVision print management tool, which offers proactive, realtime monitoring and a simple user interface, can help you lower printer management costs.
